JAVA LAB EXPERIMENT 15

NAME: KUNJ TRIVEDI

CLASS: SE9

ROLL NO.: 38

PROGRAM:

```java
import java.awt.*;

public class experiment extends java.applet.Applet {

  /** Initialization method that will be called after the applet is loaded
   *  into the browser.
   */
  public void init() {
    // TODO start asynchronous download of heavy resources
  }

  public void paint(Graphics g) {
        g.drawRect(300,300,100,200);
        g.drawLine(300,300,350,200);
        g.drawLine(400,300,350,200);
        g.drawRect(400,300,400,200);
        g.drawLine(350,200,800,200);
        g.drawLine(800,200,800,300);
        g.drawOval(550,350,100,120);
        g.drawRect(330,400,40,100);
        g.drawString("TRIVEDI",600,245);

  }
}
```

OUTPUT:

TRIVEDI
